

Shen Anthony M. Sarsale

09941900395 | shensarsale25@gmail.com | St. Christine, Lianga, Surigao, Del, Sur

PROFESSIONAL SUMMARY

IT graduate who's spent the last few years building real things, not just studying them — from a grading module used in an actual LMS at Jairosoft, to a stock-trading simulator and a full-stack study app called Laze. Comfortable moving across the stack (Python, React, PHP) and equally comfortable running a sprint as Scrum Master. Cum Laude graduate and CS50-certified.

EXPERIENCE

Web Developer Intern

Dec 2025 – Feb 2026

Jairosoft Inc.

Holy Trinity Avenue, Holy Trinity Village, Cabantian, Davao City.

- Built and shipped a grading/assessment module for Jairosoft's LMS using Bubble.io, designed for both teachers and students so instructors could create and score assessments with ease.
- Used DevOps practices and Bubble's version control to organize feature work and keep the shared codebase conflict-free across the team.
- Collaborated with the development team via Microsoft Teams to scope, build, and test the module end-to-end, delivering it on schedule.
- Served as Scrum Master for a 15-person intern team, running morning and afternoon standups across 2 sprints and keeping the team at ~90% on-time task completion.

EDUCATION

Southway College of Technology

San Francisco, Agusan, Del Sur

Bachelor of Science in Information Technology, Cum Laude, GPA: 1.31 (1.0 = highest)

Aug 2022 – Mar 2026

- Civil Service Eligible
- TES Scholar
- 3rd Place (Team), Regional Cyber Excellence Contest, October 2025
- Performing Arts Awardee

CERTIFICATIONS

CS50x Introduction to Computer Science

2026-06

CS50 Harvard

CS50's Introduction to programming with Python

2025-09

CS50 Harvard

PROJECTS

Laze | React, Vite, HTML, Supabase, Tailwind CSS, Netlify, Git

Apr 2026 – Jun 2026

- Built a full-stack study companion web app that lets users track study sessions and manage tasks.
- Ran user testing with 4 classmates, using their feedback to redesign the task-tracking flow.

Stock-Trading | Python, Flask, SQLite, Jinja, HTML, CSS

Apr 2024 – May 2025

- Built a web app for managing a virtual stock portfolio — users look up real-time stock prices, buy and sell shares with simulated cash, and review a full transaction history.

Cargo | Dart, Flutter, HTML, Tailwind CSS, PHP, MySQL, Git

Aug 2025 – Mar 2026

- Performed QA testing on a full-stack peer-to-peer car rental app as part of a capstone team project.
- Tested user authentication, vehicle listings, search, and booking, identifying bugs and working with developers to reproduce and verify fixes before submission.

Weather-WebApp | Python, Django, HTML, CSS, Netlify, Git

Aug 2026

- Built a weather app using Python, Django, HTML, and Tailwind CSS that lets users search for a city and view its current weather via the OpenWeatherMap API.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, C, C++, SQL, Dart, HTML, CSS, VB.NET

Frameworks/Tools: React, Bootstrap, Tailwind CSS, Vite, Jinja, Bubble.io, Git, MySQL, Vercel, Netlify
